New Teachers and Researchers training | 10th edition

Workshop Shaping the Future Programme

Career acceleration, promoting development,
increasing Técnico's Teachers and Researchers Impact.

30th of June, 1st of July and 2nd of July 2025

Caparide Centre of Secretaria Geral da Ciência e Educação

What?

The Fundamental Training for assistant professors and researchers on probation is designed to help professors and researchers adapt to the School culture, as well as to help define their professional identity and build a career development plan. This training lasts two and a half days, during which all those recently integrated into university teaching and scientific research careers are trained in the areas of team leadership and research projects, promoting their professional affirmation in their areas of specialty, but also improving their teaching skills, so that they can actively contribute to the promotion of excellent teaching. The aim is for them to exploit their full potential and increase the impact of all dimensions of their activities as Técnico professors and researchers.
